

The screenshot shows the main interface of the "Insulin Calculator v2.00". At the top left is an information icon (i). The title "Insulin Calculator v2.00" is centered at the top. Below the title, there are four input fields: "Previous Glucose" with the value 200, "Current Glucose" with the value 180, "Bolus (u)" with the value 2, and "Rate(u/hr)" with the value 1.5. Below these fields, there are two sections: "Last non-zero rate u/hr" and "Diabetic Mode". The "Last non-zero rate u/hr" section features a vertical list of values from 0.2 to 0.8, with 0.5 selected and highlighted. The "Diabetic Mode" section has a toggle switch that is currently turned off. To the right of the rate list, there are four blue text buttons: "Calculate for range 80-120", "Calculate for range 100-150", "Calculate for range 125-175", and "Calculate for range 150-200".
